Dear Colleagues,

*European Oncology & Haematology* is now accepting submissions to the Summer and Winter 2018 editions. *European Oncology & Haematology* aims to publish topical articles, which are chosen for their evaluation of current practices and research that directly affect practitioners in the fields of oncology and haematology.

Authors are invited to submit original research, review articles, case reports and editorials across all aspects of oncology and haematology. We are particularly interested in real-world studies and review articles that give a concise overview of the latest clinical trial data and developments, illuminate clinical practice and are of interest to practising oncologists and haematologists. Authors can submit their manuscript directly through the Editorial Manager site (details below) and presubmission enquiries can be made to the journal's editor ([helen.fowler@touchmedicalmedia.com](mailto:helen.fowler@touchmedicalmedia.com)).

*European Oncology & Haematology* is an open access journal, which means that your paper is directly available to anyone in the world to download and read for free. Submitted articles undergo a thorough peer review process to ensure scientific and ethical integrity, and accepted articles are published both in print and online. We also encourage authors to submit accompanying multimedia content alongside their article.

We look forward to working with you.

Axel S Merseburger and the *European Oncology & Haematology* team
